Venturi® Carbtech

Flooring Tile

The Venturi Carbtech Flooring Tile is an extruded aluminium carrier fitted with a silicon carbide (Carbtech) insert that sits flush against an adjacent floor finish, such as carpet tile or ceramic or stone tile, where neither rebating nor surface-mounting applies (other profiles are available in the range). The insert achieves a P5 slip-resistance classification to AS 4586, suitable for internal and external applications in wet and contaminated conditions. The silicon carbide surface is corrosion resistant; its abrasive texture makes it unsuitable for barefoot traffic areas

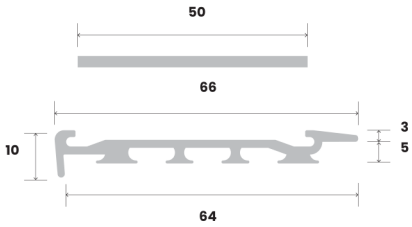

COMPLIES WITH AS 4586 (slip resistance) · AS 1428.1 (luminance contrast)
