Venturi® Polymer

Flooring Tile

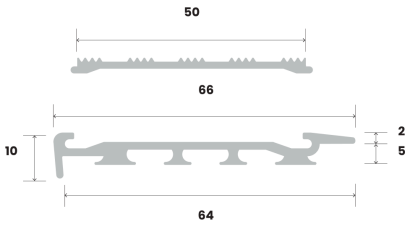

The Venturi Polymer Flooring Tile is a UV stable polymer insert for access and entry applications. It sits flush against an adjacent floor finish, such as carpet tile or ceramic and stone tile, for use anywhere the nosing must finish level with another product where neither rebating nor surface-mounting applies; other profiles are available across the range. It achieves a P5 slip rating to AS 4586, the highest pedestrian classification in both wet and dry conditions, and suits wet and barefoot-traffic areas including aquatic centres and beach access.

COMPLIES WITH AS 4586 (slip resistance) · AS 1428.1 (luminance contrast)
